#### Dynamic Currency Conversion (DCC)

DCC processing fee of 3.5% will be charged on the billed amount with effect from 15th January 2022 for both Credit and Debit Card transactions.

This fee will be shown as a separate transaction and processed to the Credit Card/Bank Account within 7 working days from the transaction posting date.

The stamp duty of 2.5% will be applicable for DCC Credit Card transactions.

#### What is a DCC transaction?

A DCC transaction is a service offered at POS, E-commerce or any card acceptance modes by merchants/service providers who are located locally or overseas or online. The DCC service converts a foreign currency transaction into the currency of the Credit Card/Bank Account at the point of sale and processes the agreed billing currency amount to the Credit Card/Bank Account.

#### What happens if the transaction is converted via DCC service?

The merchant/service provider will convert the foreign currency transaction amount into the currency of the Credit Card/Bank Account using an exchange rate determined by the relevant merchant/service provider and agreed with the cardholder. This rate may differ from the foreign exchange rates being used by Visa, Mastercard or other.
